About the Organization

European Union Global Research Association (ABKAD)

European Union and Global Research Association with its Turkish acronym, ABKAD is an association which conducts activities focusing on the European Union and Global Developments as its name implies. Most of the members of the Association are academics and diplomats.

ABKAD office is in a central location in capital Ankara. The office is very close to the former presidency compound, some of the embassies such as Finland, Portugal, Greek, Kuwait, Somali and Residence of the United States Ambassador and Dutch Ambassador. The office location is also in a walking distance to the Seğmenler which is one of the biggest parks in Ankara and Tunali street which is a social attraction point.

ABKAD believes the full integration of Turkey with the European Union. Cultural diversity is the most important richness of such integration, along with the common European values such as “Democracy”, “Rule of Law”, “Respect to Human Rights” and “Freedom of Expression”. This will only be possible by supporting new generations to meet and communicate with each other.

ABKAD is willing to support the promotion of solidarity as a value, mainly through volunteering. Our main aim is to enhance the engagement of young people and organizations in accessible and high-quality solidarity activities as a means to contribute to strengthening cohesion, solidarity, democracy and citizenship in Europe, while also responding to societal challenges and strengthening communities, with particular effort to promote social inclusion.

About the Project

European Solidarity Corps

Expectations from volunteers;

- To prepare and present reports on the opinion of their government, public and/or academics concerning the current developments in the European Union (EU), future of the EU debate, enlargement of the EU and Turkey-EU relations. The reports are expected to reflect the current situation as well as the further expectations and possible solutions to the issues.

The reports prepared by the volunteers and presented to our members and diplomatic mission members will be very valuable. We believe that this will not only contribute to empower the professional skills of the volunteers but also enlighten our members and the society in general about any member state our volunteer is originating. The volunteers will define the topics in line with the aims of our organization and prepare their report according to the guidelines that will be handed in advance. This process will give an opportunity to work as a team, learning to adapt new realities in a new environment, to develop their communication skills and to support their competences.
